II. General Rules for Judges

- 1) Categories without standard answers: Pencil Calligraphy, Chinese Brush Calligraphy, Western Drawing, Chinese Painting, Writing Composition, Read Aloud, Bilingual Translation, Speech:
 - a) Each judge should follow the guidelines for each category. After judging, list the 9 contestants with the best scores such that the one with the highest score should be the first one in the list, followed by the second best, and so on. All other contestants are ranked as 10th.
 - b) The rankings from all judges are summed to produce a combined ranking list. Winners are decided as those with the lowest numbers in the combined ranking list. If there are more than 5 judges, the largest ranked number and the smallest ranked number for each student is removed before the sum is taken.
 - c) In the event that the sums for some students are identical, ranking will be based on the number of judges who listed the contestants as 1st. If this does not resolve the tie, the number of judges who listed the contestants as 2nd will be used as a criterion. The same principle will be repeated to determine ranking. No tie is allowed for the top three winning positions.

- 2) Categories with standard answers: Zhuyin Phonetics, Pinyin Phonetics, Reading Comprehension, Chinese Typing:
 - a) Rankings will be determined by contestants' scores. Top three contestants will be selected. No tie is allowed for the top three winning positions.
 - b) In case of a tie, judges should follow guidelines provided for each category to resolve the tie.
- 3) In the event that winners cannot be determined by using the rules listed in 1) and 2), judges should restart the judging process afresh. If still no decision can be made, the category lead and all judges should vote to determine the winners. This re-judging process can only be done one time.
- 4) Category leads and judges only answer to the organizing committee and thus shall only report the results to it.
